8. Only a lieutenant colonel, a political officer with the rank of a senior lieutenant, and a rear detail of one senior lieutenant and 35 to 40 EM remained in the Delius Kaserne on 6 September 1950. All doors in the installation were locked and sealed with the exception of the door of the building housing the guard detail. When the supply officer who controlled the German laborers left he said: "You (do) no work now, (for) fifty days, then we (will be) back from Altengrabow". The German workers were not discharged. (5)
9. A German worker in the Delius Kaserne said that the entire engineer unit had returned from the Koenigswald. The unit assembled at the patch of woods near the Delius Kaserne at 6:30 p.m. on 5 September 1950. The equipment of the unit included 20 pontoons. The headquarters personnel and the military band from the barracks were observed with the troops. An officer allegedly said that the engineer unit would go to the Elbe River and practice there for 50 days. Only a rear detail of 30 men was left in the barracks on 6 September 1950. (6)

[redacted] Comments.

- 25X1A (1) The troops presumably belonged to the guard unit stationed in the Generals' Quarter. [redacted]
- (2) According to another source about 500 troops were quartered in the former Unteroffizierschule on 22 August 1950. [redacted] 25X1A
- (3) On 19 August 1950 the same source reported that the Potsdam engineer units which used to practice in the engineer training area at the Koenigswald were no longer there. [redacted] 25X1A
- (4) The amphibious cars belonged to the unidentified engineer regiment of the GOFG in the Delius Kaserne, Potsdam, [redacted]
- 25X1B (5) Artillery components of the unidentified Arty Div of the GOFG are stationed in the Delius Kaserne [redacted] The report indicates that all units left the installation on 6 September 1950 after an artillery unit had apparently returned to the post for a temporary stay and necessary maintenance. It is believed that the entire artillery brigade in the Delius Kaserne, probably the 30th Gds Gur Arty Brig, went to Altengrabow for short training cycles throughout the summer of 1950.
- (6) The entire unidentified engineer regiment of the GOFG including the engineer unit which previously practiced at the Koenigswald, apparently left the Delius Kaserne for engineer practice on the Elbe River, possibly at Bittkau.
